ITF INTERTEX PORTUGAL 2027:
EUROPE'S MOST COMPREHENSIVE EXHIBITON OF TEXTILE INDUSTRY

ITF Intertex Portugal is a leading international exhibition that connects textile and fashion manufacturers, suppliers, sourcing professionals, and decision-makers from Europe, South and North America, Asia, Africa and the Middle East. As the exhibition takes place in Porto, one of Europe's most important textile and fashion hubs, it offers exhibitors direct access to qualified buyers, distributors, brands, and industry professionals actively seeking new products, suppliers, and business partnerships. With the official support of ANIVEC/APIV, the Portuguese Textile and Clothing Association, ITF Intertex Portugal benefits from strong industry backing and direct connections to Portugal's dynamic textile ecosystem

The exhibition builds on the success of its previous editions and continues to strengthen its position as a strategic meeting point for the global textile and fashion industries. Thousands of professional visitors, international exhibitors from numerous countries, and a dedicated Hosted Buyer Program are what makes the exhibition create a highly productive environment where business opportunities turn into long-term partnerships. If your goal is to expand into the European market, meet local and international visitors, increase exports, launch new collections, or strengthen your international network, ITF Intertex Portugal is where your business belongs.

WHY IS PORTUGAL AN IMPORTANT DESTINATION FOR TEXTILE AND FASHION INDUSTRIES?

Europe's Leading Textile Manufacturing Hub

The Porto-Braga region is home to one of Europe's most established textile and apparel industries, bringing together manufacturers, brands, suppliers, and innovation centers within a highly connected ecosystem.

Direct Access to the Portuguese Market

Exhibitors can connect with Portuguese manufacturers, brands, distributors, and sourcing professionals actively seeking new products, suppliers, and business partnerships.

Meet International Buyers

ITF Intertex Portugal attracts qualified buyers and sourcing professionals from Europe as well as key textile markets across Asia, the Americas, Africa and the Middle East.

Gateway to Europe

Portugal provides easy access to Europe, which enables exhibitors to expand their network, develop new business opportunities, and strengthen their presence in European markets.

BENEFITS OF EXHIBITING AT ITF INTERTEX PORTUGAL

Reach Qualified Buyers! Connect with sourcing professionals, brands, retailers, and manufacturers from Europe and key global textile markets.
Expand Your Export Network! Develop new partnerships and unlock international business opportunities.

Access European Markets! Position your company within one of Europe's most important textile ecosystems.

Showcase Your Innovations! Present your latest products and solutions to decision-makers actively seeking new suppliers.
Benefit from Hosted Buyers! Meet carefully selected buyers through dedicated B2B networking programs.

Increase Brand Visibility! Strengthen your market presence and build recognition across the textile industry.

Textile Machinery & Technologies
- Textile Machinery
- Automation Systems
- Digital Manufacturing Solutions
- Industrial Sewing Technologies

EXHIBITOR TESTIMONIALS

YARANA TEXTILE MILL (PAKISTAN)

This is the first time that we are exhibiting here. I have come here, in Portugal. This is a very nice experience to come here. We have a lot of customers over here who have visited our stand. We recommend other companies and other people to come and visit. It is very beneficial for both parties, for consumer ends and for manufacturer ends. Everyone should come and visit.

ETOS (POLAND)

We have made a lot of contacts around the world: from Asia to local markets, from Portugal. We loved the organization here. I highly recommend it.

IMCTEKS (TURKIYE)

We are really happy to be here at this Portugal fair. We are happy with the visitors that we received. Hopefully, we are going to be happier with the order that we get from here.

CALVELEX (PORTUGAL)

We are here for the fourth time at Intertex Portugal. This is an international experience, and brings us a lot of connections. This kind of experience brings us more awareness to the company, and links us to important players in the industry. It is always a great experience to be here.

EXHIBITOR TESTIMONIALS

DEVAN CHEMICALS (BELGIUM)

The feedback that we have received is very good taking into account that we have managed to reach a very important market. This exhibition is very important since we managed to promote our brand and our technology to a great number of visitors who were very interested. The support we got from B Group was very important for us. We hope to repeat our participation in Spain and Tunisia.

SOMBRA COSMOPOLITA (PORTUGAL)

We are very satisfied with our first participation in Intertex. We met people from different countries. The visitor profile was compatible with what we were looking for. Without any doubt, we will be participating in Intertex Spain, as well. It was a great experience for us not only on the level of getting to find customers but also on receiving feedback and creating a network that is very useful for this ecosystem. Therefore, I highly recommend everyone to participate and visit.

EMTEC ELECTRONIC GMBH (GERMANY)

We have a lot of traffic at the booth. We will definitely be back next year. Thank you to the organizers, all was organized very well. It is a nice show.
